/admin/tech-stack	PASS	Admin tech stack viewer

Login

Session persistence **admin_sessions DB table — tokens aren't stored, expiry enforced**

2FA support **TOTP RFC 6238 — database-stored secrets, optional per admin**

Rate limiting **20 req / 15 min per IP on login endpoint**

Direct route reloads **All /admin/* routes served by SPA fallback (404.html)**

Mobile responsiveness **Tailwind responsive classes throughout admin layout**

Error boundaries **AdminLayout wraps each route with React error boundary**
